## **How would you rate your college experience so far?**

4

---

## **What technical and study skills learned in high school were most valuable to you in your first year of college?**

How to use REVIT and AutoCAD

---

## **What technical and study skills were most lacking in your first year of college?**

None that I know of

---

## **What do you like most about your college experience so far?**

The work is challenging, but interesting and thought provoking.

---

## ***Academically* - what, if anything, is frustrating or missing from your college experience so far?**

No reply

---

***Socially* - what, if anything, is frustrating or missing from your college experience so far?**

The time to have fun with friends

---

**Any advice for high school students as they prepare for college applications?**

Be versatile, and show it. Colleges like people who have dabbled in different things, more than those who specialized in one area.

---

**Any advice for students about to begin their college career in September?**

Make friends. They're invaluable.

---

**How useful would this type of profile information have been for you, prior to starting college?**
